

RCS Laptop Requirements for High School Students

All incoming HS students are required to have a Windows-based laptop that meets the minimum specifications listed below.* Chromebooks, MacBooks, iPads, tablets, and other devices are not acceptable.

Minimum Requirements for a Windows-Based Laptop:

Windows-based laptops are required for High School students, especially for students taking Business or STEM electives.

- Windows 10 or higher
- CPU: Intel i5, Ultra 5, Core 5, or higher; AMD equivalent (Ryzen 5 or higher); Snapdragon equivalent (X Plus or X Elite)
- Memory: 8GB or higher
- Hard Drive: 250 GB SSD or higher
- Not more than 5 years old (determined by manufactured date)

**Students admitted to RCS before or during the 2022-2023 school year are allowed to continue using their current device as long as no HS class requires them to have a Windows-based laptop. However, all new students must have a Windows-based laptop that meets the minimum requirements. All devices replaced by students admitted before or during the 2022-2023 school year must also meet the minimum requirements.*
